

Construction Specifications Institute – Division Numbers & Titles 2004 Edition

Division 00 – Procurement and Contracting Requirements: Essentially the same.

Division 01 – General Requirements

Division 02 – Existing Conditions: This division is now limited to “existing conditions,” construction practices that relate to items at the site and at the commencement of work – selective demolition, subsurface and other investigation, surveying, site decontamination, and site remediation, among others. All site construction as well as heavy civil & infrastructure subject matter, including utility & pavement work, has been relocated to the Site & Infrastructure Subgroup.

Division 03 – Concrete: Essentially the same.

Division 04 – Masonry: Essentially the same.

Division 05 – Metals: Essentially the same.

Division 06 – Wood, Plastics, and Composites: Essentially the same.

Division 07 – Thermal and Moisture Protection: Essentially the same.

Division 08 – Openings: Renamed but with essentially the same scope with the addition of some other openings such as louvers & grilles

Division 09 – Finishes: Essentially the same.

Division 10 – Specialties: Essentially the same.

Division 11 – Equipment: Equipment related to process engineering has been relocated to the Process Integration. Equipment Subgroup & equipment related to infrastructure has been relocated to the Site & Infrastructure Subgroup.

Division 12 – Furnishings: Essentially the same.

Division 13 – Special Construction: Special construction related to process engineering has been relocated to the Process Equip. Subgroup. Security access, building automation, detection & alarm and fire suppression subjects have been relocated to the Facility Services Subgroup.

Division 14 – Conveying Equipment: Renamed with process related material handling subjects relocated to the Process Equipment Subgroup.

Division 15 – has been reserved for future expansion and material has been relocated to Division 22 – Plumbing and Division 23 – Heating, Ventilating & Air Conditioning in the Facility Services Subgroup.

Division 16 - has been reserved for future expansion and material has been relocated to Divisions 26 – Electrical and Division 27 – Communications in the Facility Services Subgroup.

Facility Services Subgroup:

Division 21 – Fire Suppression: Fire suppression subjects relocated from Division 13.

Division 22 – Plumbing: Plumbing subjects relocated from Division 15.

Division 23 – Heating Ventilating and Air Conditioning: HVAC subjects relocated from Division 15.

Division 25 – Integrated Automation: Expanded integrated automation subjects relocated from Division 13.

Division 26 – Electrical: Electrical and lighting subjects relocated from Division 16.

Division 27 – Communications: Expanded communications subjects relocated from Division 16.

Division 28 – Electronic Safety and Security: Expanded electronic safety and security subjects relocated from Division 13.

Site and Infrastructure Subgroup:

Division 31 – Earthwork: Site construction subjects, chiefly below-grade, relocated from Division 2.

Division 32 – Exterior Improvements: Site construction subjects, chiefly above-grade, relocated from Division 2.

Division 33 – Utilities: Expanded utility subjects relocated from Division 2.

Division 34 – Transportation: Expanded transportation subjects relocated from various Divisions.

Division 35 – Waterway and Marine Construction: Expanded waterway and marine subjects relocated from mainly Division 2.

Process Equipment Subgroup: Some material in this subgroup is new to MasterFormat 2004 Edition, while some has been relocated from Divisions 11, 13 & 14.

Division 40 – Process Integration: Process facilities are composed of a variety of subsystems, tied together & integrated by distribution pathways, control & instrumentation.

Division 41 – Material Processing and Handling Equipment: Equipment for processing & conditioning of raw materials; material handling equipment for bulk materials as well as discrete units; manufacturing equipment & machinery, test equipment, and packaging / shipping systems.

Division 42 – Process Heating, Cooling, and Drying Equipment: Equipment for process heating, cooling & drying of materials, liquids, gases & manufactured items & materials.

Division 43 – Process Gas and Liquid Handling, Purification and Storage Equipment: Equipment for handling, purification & storage of process liquids, gases, slurries; includes atmospheric tanks as well as pressure vessels.

Division 44 – Pollution Control Equipment: Equipment for controlling emission of contaminants from manufacturing processes &

treatment of air, water, soils & noise contaminants.

Division 45 – Industry-Specific Manufacturing Equipment: A division in which users can specify equipment that is used only within a single industry.

Division 48 – Electrical Power Generation: Plants and equipment for the generation and control of electrical power from fossil fuel, nuclear energy, hydroelectric, wind, solar energy, geothermal energy, electrochemical energy & fuel cells.
